ABSTRACT:

Furniture items ordering is a form of electronic commerce which allows consumers to directly buy goods or services from a seller over the internet using a web browser. Consumers find a product of interest by visiting the website of the retailer directly or by searching among alternative vendors using a shopping search engine, which displays the same products availability and pricing at different e-retailers. When an online store is set up to enable businesses to buy from another businesses, the process is called business- to-business (B2B) online shopping. Typical online store enables the customer to browse the firms range of products and services.

INTRODUCTION:

- This project Shop For Home has been developed in Angular, Java Spring Boot and MySql.
- The Shop For Home project is an application which is based on managing the furniture items and sell the furniture items online.
- The main purpose for developing this project in Angular and Java Spring Boot is to manage all the details about furniture item, furniture item category, company, order, sales etc.
- There are two categories of user available in this project. First one is admin and second one is user. Admin can add furniture item category and can also manage the sales details.
- This Angular project very helpful for maintaining the sales activity in furniture item. In this project customer can see the details of furniture item category etc.
- Only Admin can edit or delete the details of furniture item.

USER FUNCTIONALITIES:

- As a user I should be able to login, Logout and Register into the application.
- As a user I should be able to see the products in different categories.
- As a user I should be able to sort the products.
- As a user I should be able to add the products into the shopping cart.
- As a user I should be able to increase or decrease the quantity added in the cart.
- As a user I should be able to add “n” number of products in the cart.
- As a user I should be able to get the Wishlist option where I can add those products which I want but don't want to order now
- As a user I should get different discount coupon

ADMIN FUNCTIONALITIES:

- As an Admin I should be able to login, Logout and Register into the application.
- As an Admin I should be able to perform CRUD on Users.
- As an Admin I should be able to Perform CRUD on the products.
- As an Admin I should be able to get bulk upload option to upload a csv for products details
- As an Admin I should be able to get the stocks.
